PE Group Career Start-up Fund – Your Dream, We Care

Giving back is among the most important and valuable things an entrepreneur can do. The society we live in performs a huge role of shaping us, and making us reputable, so we give back to the society even more than what the society has given to us. In fact, it's a joy to do so.

“When God blesses you financially, don’t raise your standard of living.

Raise your standard of GIVING”

Our founder, Dato Sri Sherwin Chew started his entrepreneurship journey since young with strong passion. His path towards his goals was not as smooth in the beginning, and he had his fair share of failures. From his own experience he understood how hard it was for the young generation to kick start their dreams in building up their entrepreneurship journey. This is where PE Group has been working hard to support and helping the young entrepreneurs.

Moving forward into the next generation of helping Malaysia realising its Shares Prosperity Vision 2030, PE Group is launching a RM1 million Career Start-up fund. The fund aims to provide valuable financial assistance to nurture young, aspiring entrepreneurs to pursue their dreams. This also encourages and motivates young people in Malaysia to start own business and contribute to the development in our country.

In regard to PE Group’s Career Start-up Fund, “Being young shouldn’t be an obstacle. Being young is an opportunity.”, Dato Sri Sherwin Chew remarked. We believe, if we can help create strong, sustainable communities, it will ultimately strengthen our business too.
